

Old Fletton Urban District Council.

ANNUAL REPORT

OF THE

MEDICAL OFFICER OF HEALTH

UPON THE

Sanitary Condition of the District

during the year 1946.

Old Fletton Urban District Council.

ANNUAL REPORT

OF THE

MEDICAL OFFICER OF HEALTH

UPON THE

Sanitary Condition of the District

during the year 1946.

To the Old Fletton Urban District Council.

MR. CHAIRMAN & MEMBERS OF THE COUNCIL,

I beg to submit the Annual Report on the sanitary conditions of the district for the year ending 31st December, 1946.

The report has been constructed on similar lines as last year's report, as requested by the Ministry of Health.

STAFF.

Medical Officer of Health V. D. BUCHANAN, L.R.C.P. & S. Ed.

Sanitary Inspector S. HAIGH, C.R.S.I., M.S.I.A.

STATISTICS AND SOCIAL CONDITIONS OF THE AREA.

Area	3029 acres
Estimated Population (mid 1946)	8303
Number of Inhabited Houses, end of 1946	2171
Rateable Value	£39,675
Value of Penny Rate	£157

During the war years no radical change took place in the industry of the District. As formerly, brick making remains the principal industry, with the preparation of canned fruits and vegetables, and engineering as subsidiaries. In addition there are seasonal industries in the manufacture of sauces and of sugar from sugar beet.

All these industries are equipped with modern processes and all the firms take ample precaution for the welfare of their employees in the provision of rest rooms and canteens etc.

VITAL STATISTICS.

LIVE BIRTHS

Birth Rate per 1000 population	18.9
--------------------------------------	------

STILL BIRTHS

Rate per 1000 total births	36.8
----------------------------------	------

DEATHS

Death rate per 1000 population	8.7
Deaths from Puerperal Causes per 1000 total (live and still) births	6.1

Death Rate of Infants under One Year of age:—

All infants per 1,000 live births	25.4
Legitimate infants per 1,000 legitimate live births	30.3
Illegitimate „ „ „ illegitimate „ „	Nil
Deaths from Cancer (all ages)	13
Deaths from Measles (all ages)	Nil
Deaths from Whooping Cough (all ages)	Nil
Deaths from Diarrhoea (under 2 years)	Nil

RATES

	Per 1,000 Population			Per 1,000 Live Births
	Live Births	Still Births	Death Rate	Infantile Mortality
Fletton	18.1	0.48	8.7	25
England & Wales	19.1	0.53	11.5	43

The following table shows the classification of deaths from all causes (Registrar-General's figures):—

CAUSES OF DEATH.		Males	Females	Totals
All Causes.		36	37	73
1. Typhoid and paratyphoid fevers	—	—	—
2. Cerebro-spinal fever	—	—	—
3. Scarlet Fever	—	—	—
4. Whooping Cough	—	—	—

34. Road Traffic Acc.	—	1	1
35. Other violent causes	—	3	3
36. All other causes	4	5	9

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA.

(a) **Laboratory Facilities :**

No change has taken place in the general arrangements during the past year. Bacteriological specimens from Practitioners in the district are examined and reported upon at the Pathological Department of the Memorial Hospital, Peterborough, or by the Pathological Laboratory, Tennis Court Road, Cambridge.

(b) **Ambulance Facilities :—**

- (1) For the removal of infectious cases a motor ambulance is available at the Isolation Hospital, Huntingdon.
- (2) For non-infectious and accident cases excellent provision is made by Peterborough City Authority and London Brick Company.

(c) **Nursing in the Home :—**

Nursing in the district is carried on by the Fletton, Woodston and Stanground Nursing Association under the supervision of the County Council. Two qualified nurses, both of whom are also certified midwives, are employed. They carry out the general nursing in the district, and attend the majority of maternity cases.

No provision is made for the home visiting of Measles, Whooping Cough and Infantile Diarrhoea.

All cases of Tuberculosis are visited by the Tuberculosis Health Visitor and a report with details of home conditions and circumstances is completed.

(d) **Clinics and Treatment Centres:—**

Infant Welfare work in the district is carried out under the auspices of a voluntary body, the Fletton, Woodston and Stanground Infant Welfare Association, at their clinic in London Road. The Infant Welfare Clinic has weekly sessions on Tuesdays from 2 to 4 p.m.

The Hunts. County Council provide the following health services:—

School Clinic (Minor Ailment)	London Road Clinic, Old Fletton, Every Wednesday 9-30—12.
Eyes	London Road Clinic. By Appt.
Dental Clinic	High Street, Old Fletton.
Tuberculosis	High Street, Old Fletton.
Orthopaedic	Memorial Hospital, Peterborough, Every Monday 2-15 p.m. By Appt.
Nose, Throat & Ear Clinic.....		Memorial Hospital every Wednesday at 3 p.m. By Appt.
Venereal Diseases	28, Fitzwilliam Street, Peterborough. Men—Tuesday and Friday 6—8 p.m. Women—Tuesday and Friday 3-30—6 p.m.

Under the Ante and Post Natal Scheme, provided by the County Council, expectant mothers are examined twice during their pregnancy (or oftener if necessary) and once after confinement.

(e) Hospitals—Public and Voluntary :—

- (1) Fever—The treatment of infectious diseases is carried out at the Hospital for Infectious Diseases at Huntingdon, which is provided by the Joint Hospital Board.
- (2) The Peterborough Memorial Hospital continues to carry out the general hospital service in the district. At this hospital facilities for In-patient and Out-patient treatment of General Medical or Surgical Cases are available.

(3) Maternity Hospital :—

Provision is made for the reception of necessitous Maternity Cases into either, the Emergency Maternity Hospital, Paxton Park, or St. John's Hospital, Peterborough.

INSPECTION AND SUPERVISION OF FOOD.

The routine visits of inspection in connection with this work have been carried out as in past years.

HOUSING.

During the year ended 31st December, 1946, the Council contracted for the erection of 18 houses of which 8 have already been occupied. The tenants were selected in accordance with the Council's Points system.

In addition there were 23 houses erected by private enterprise.

The Council had also contracted with the South Field Estates (Peterborough) Limited, for the erection of 24 houses under the Ministry of Health circular 92/1946.

DRAINAGE AND SEWAGE.

During the course of the year, the Consulting Engineer submitted for the consideration of the Council a report on drainage within the Urban area.

This report envisages the provision of a relief sewer and the reconstruction and enlargement of the existing sewage disposal works.

WATER SUPPLY.

The entire district is served by a mains water supply which, although it is of a hard nature, is otherwise satisfactory.

Generally the pressure is quite satisfactory but in one area in the district complaints have been received about the low pressure.

TO THE MEDICAL OFFICER OF HEALTH.

SIR,

I beg to submit my Report for the year ending 31st December, 1946.

Complaints received	Total No. of	1000
Premises, houses, etc.	No. inspected	1000

				No. in which nuisances abated Nil
Bakehouses	No. on register	3
				No. in which nuisances abated Nil
Homework	No. of outworkers	Nil
				No. of Houses Nil
Legal Proceedings, <i>i.e.</i> , Summonses, etc.				Nil
Convictions				Nil

S. HAIGH,

Sanitary Inspector.

The following table gives the incidence of notifiable diseases (other than tuberculosis) in the area during 1946.

[illegible]

INFECTIOUS DISEASES.

The return of notifications of Infectious Diseases for 1946 was small, Scarlet Fever presenting the greatest number with twelve. These occurred chiefly in June, July, October and December. With one exception all were removed to Hospital. This case was not discovered until the stage of desquamation was reached and at this advanced stage removal to Hospital was considered to be unnecessary.

The Infectious Disease with the lowest number of notifications was Diphtheria, there being only one case. This child had not been immunised.

DIPHTHERIA IMMUNISATION.

The following table sets out the number of children immunised in the district, together with the figure of the total child population:—

UNDER 5 YEARS		BETWEEN 5—15 YEARS.	
Number immunised	Estimated Population	Number immunised	Estimated Population
327	659	1048	1160

Tuberculosis.

AGE PERIODS	NEW CASES				DEATHS			
	Pulmonary		Non Pulmonary		Pulmonary		Non Pulmonary	
	M.	F.	M.	F.	M.	F.	M.	F.
0	—	—	—	—	—	—	—	—
1	—	—	—	—	—	—	—	—
5	—	—	1	—	—	—	—	—
15	—	—	—	—	—	—	—	—
25	1	4	—	—	—	1	—	—
35	3	1	—	—	—	—	—	—
45	—	1	—	—	—	—	—	—
55	—	—	—	—	—	—	—	—
65 & upwards.....	1	—	—	—	1	—	—	—
TOTAL :—	5	6	1	—	1	1	—	—

No action was found to be necessary under the Public Health (Prevention of Tuberculosis) Regulations 1925 in connection with persons suffering from pulmonary tuberculosis employed in the milk trade, or under Section 172 of the Public Health Act 1936 dealing with the compulsory removal to hospital of persons suffering from tuberculosis.

I am,

Your obedient servant,

V. D. BUCHANAN,

Medical Officer of Health.
